Product design Projects

Product Design - CareerFoundry (UX/UI Specialization)

Completed an intensive product design program focused on UX research, interaction design, and frontend development. Designed end-to-end digital experiences from research to high-fidelity prototypes and usability testing.

Expert - Mentorship Platform (UX/UI Product Design)

Designed a responsive platform connecting users with professionals for real-time guidance. Led user research, wireframing, interaction design, and prototyping to improve onboarding and communication flows.

Kubo - Digital Identity Vault Concept

A calm identity vault concept for organizing important documents; focused on clarity, confidence, and peace of mind.

Portfolio Website - Front-end Development

Designed and developed a responsive portfolio website to showcase product design work and case studies. Defined information architecture, user flows, and interaction design, and implemented the interface using frontend technologies.

Professional Experience

Front of House Manager - Clink Hostels | 2024–Present

Optimized end-to-end customer journeys across multiple service touchpoints in a high-volume environment. Redesigned operational workflows and implemented experience improvements, reducing staff turnover from 132% to 50%. Applied data-informed decision-making and cross-functional collaboration to enhance service quality and efficiency.

Analyst - Smartgaming | 2023–2024

Conducted behavioral research and data analysis to understand user engagement and risk patterns in digital environments. Translated insights into intervention strategies and experience improvements. Applied human-centered research methods and evidence-based decision-making.

Store Manager - Just Brands | 2022–2023

Improved customer experience and operational performance through data-driven sales and service strategies. Analyzed customer behavior and market trends to optimize engagement and outcomes. Led team development and service quality initiatives.

Assistant Manager - Hotel Lindrum | 2019–2022

Managed multi-channel service delivery and improved customer experience across operational touchpoints. Optimized cross-department workflows and implemented service improvements based on customer insights. Led teams to improve efficiency and experience quality.

Front of House & Reservation Manager - Hotel Lindrum | 2018–2019

Managed service operations and improved customer interactions across front-of-house and reservations. Resolved complex user issues using human-centered problem-solving and supported process improvements.

Operations Supervisor & Accounting - Ibis Amsterdam | 2014–2018

Improved operational workflows and service quality through process optimization and quality assurance initiatives. Streamlined internal communication and supported data accuracy and operational systems.

Education

CareerFoundry - Product Design/UX/UI | 2025 - 2026

Roc van Amsterdam - Fashion Design - 2008 – 2011
